Reviewers Frank van Cappelle, Juan-Pablo Giraldo, Auken Tungatarova, Christina Myers

Acknowledgement

This report was conceived and commissioned by UNICEF's Digital Learning Team members Frank Van Cappelle, Juan-Pablo Giraldo, and Auken Tungatarova. They provided the Digital Learning Solutions Rubric that served as the basis for identifying key dimensions for this mapping exercise. They also made substantial contributions to the methodology and structure of this report. The authors are also grateful for UNICEF's socialisation of this mapping's key findings in UNICEF's Pulse Check on Digital Learning report.

About the EdTech Hub Helpdesk

The Helpdesk is the Hub's rapid response service, available to UNICEF regional and country offices in over 190 countries and territories, FCDO advisers and World Bank staff in 70 low- and lower-middle-income countries (LMICs). It delivers just-in-time services to support education technology planning and decision-making. We respond to most requests in 1–15 business days. Given the rapid nature of requests, we aim to produce comprehensive and evidence-based quality outputs, while acknowledging that our work is by no means exhaustive. For more information, please visit <https://edtechhub.org/edtech-hub-helpdesk/>.

Mapping National Digital Learning Platforms: Full Dataset

The dataset provided here as a link to a spreadsheet¹ presents raw data from a global mapping exercise of 471 national digital platforms across 184 countries conducted by EdTech Hub as part of a Helpdesk request from UNICEF. The mapping exercise examined three key areas of availability, usability, and inclusivity of national digital learning platforms. Analysis from the dataset was used to generate a report on national digital learning platforms (↑Rui et al., 2023).²

The datasheet includes the authors' organisation of the dataset under key indicators. Readers can use the datasheet to replicate or conduct their own analysis.
